

# EQUINE PRO<sup>®</sup>

# Pleasure

*A high quality mix for horses mostly resting, in light work or showing*

EquinePro<sup>®</sup> Pleasure is a highly palatable blend of cool energy sources, protein meals and omega fatty acids combines with a high quality amino acid, mineral, trace mineral (including organic minerals) and vitamin balancer pellet for optimal horse health and wellbeing. Suitable for horses that are mostly resting, or in light work, have specific requirements for high quality protein sources and other nutrients for optimal health.

EquinePro<sup>®</sup> Pleasure is based on years of research into the nutrient requirements of non-race horses and has key nutrients to promote skeletal and cartilage health, skin and coat condition and gastrointestinal health and appetite.

Added minerals and trace minerals are balanced to promote bone and joint strength, electrolyte balance and nerve function while vitamins play a role in the release of energy. The formulation of EquinePro<sup>®</sup> Pleasure is designed to promote optimal health and wellbeing of resting and lightly worked horses.

EquinePro<sup>®</sup> Pleasure formulation has been scientifically balanced against typical Australian pastures and roughage sources promoting optimal nutrient supply when offered at recommend feeding rates.

### FEEDING:

- Introduce EquinePro<sup>®</sup> Pleasure into the diet slowly over 7 to 14 days.
- Feed by weight, not volume.
- Ensure your horse has access to clean, fresh water at all times.
- Plus 1-2kgs lucerne chaff and free access to additional roughage as hay or pasture.

### EquinePro<sup>®</sup> Pleasure (KG)

|                                  |            |
|----------------------------------|------------|
| Horses in light to moderate work | 1..5kg-3kg |
|----------------------------------|------------|
