

# EQUINE PRO®

# Stud

*A high quality mixed feed for Mares, Foals & Weanlings*

EquinePro® Stud is the result of years of research into the nutritional requirements of breeding stock. EquinePro® Stud is a palatable blend of premium grains, protein meals and includes a high quality amino acid, mineral, trace mineral and vitamin pellet for the optimal nutrition of Mares, Foals & Weanlings.

New research strongly supports the influence of the nutritional status of the mare and her offspring. These attest research findings have formed the basis of the formulation of EquinePro® Stud, which is designed to promote optimal broodmare health and nutritional support of the neonatal foal, as well as promoting optimal skeletal and muscular development of the young growing foal.

EquinePro® Stud is suited for feeding to a wide range of horses including Broodmares during pregnancy & lactation as well as weanling and yearling foals.

#### FEEDING:

- Introduce EquinePro® Kool Mix into the diet slowly over 7 to 14 days.
- Feed by weight, not volume.
- Ensure your horse has access to clean, fresh water at all times.
- Plus 1-2kgs of lucerne chaff and free access to additional roughage as hay or pasture
