

Racing Oat Free

A high quality formulation for high performing horses

EquinePro® Racing Oat Free is a high-energy blend, specially formulated for high performing horses who are unable to tolerate oats, horses prone to tying up and horse requiring additional body condition.

EquinePro® Racing plays a key role in the health and performance of racehorses and horses in moderate to heavy work. Years of nutritional research into the requirements of racehorses has been the basis of EquinePro® Racing Oat Free – it combines:

- A variety of energy sources to fuel body processes;
- Quality proteins for healthy muscles and tissues;
- Macro and trace minerals, which are important for bone and joint strength, appetite, electrolyte balance, nerve function and skin condition;
- Vitamins which play a role in the release of energy;
- Antioxidants to protect cells from damage

EquinePro® Racing Oat Free is designed to promote optimal health and performance in your elite athletes.

FEEDING:

- Introduce EquinePro® Racing Oat Free into the diet slowly over 7 to 14 days.
- Feed by weight, not volume.
- Ensure your horse has access to clean, fresh water at all times.
- Feed in conjunction with a minimum of 1% of the horse's bodyweight as roughage.
- EquinePro® Racing Oat Free can be fed in conjunction with other grains in the EquinePro® range, but the addition of other vitamins and minerals is NOT recommended, unless under veterinary or nutritional advice.
- Feed in two or more equal sized feeds, spaced evenly through the day..
