

# FibreRite Pellet

*A highly digestible and palatable fibre pellet*

EquinePro® **FibreRite Pellet** is an ideal conditioning pellet, designed for spelling horses and those in light work including pony clubbers and pleasure horses. EquinePro® **FibreRite Pellet** is a highly digestible and palatable fibre pellet that has low levels of digestible energy, making it the perfect choice for hot horses.

EquinePro® **FibreRite Pellet** doesn't contain additional vitamins or trace minerals, making it a versatile feed that can be fed in conjunction with the vitamins and minerals the individual horse requires. The high fibre content of this product creates a full feeling within the stomach, helping maintain and increase weight gain within the horse.

## FEEDING:

- Introduce EquinePro® **FibreRite Pellet** into the diet slowly over 7 to 14 days.
- Feed by weight, not volume.
- Ensure your horse has access to clean, fresh water at all times.
- Feed in conjunction with a minimum of 1% of the horse's bodyweight as roughage.
- Feed in two or more equal sized feeds, spaced evenly through the day

**\*\* Recommended feeding rate for a 500kg horse is 1-1.5kg per day  
to be mixed with a chaff combo, hay, vitamins and minerals where required \*\***

## Ingredients:

Lucerne Meal, Biscuit Meal,  
Steam Rolled Oats (Groats),  
Almond Hulls and Canola Oil

PROTEIN (%)	DIGESTIBLE ENERGY MJ/KG	FAT (%)	FIBRE (ADF (%))
